## EXCITING CONSTRUCTION UPDATE THE PROJECT IS REACHING A MILESTONE!

**PHASE 2 will begin  
Week of September 7**

### Phase 1 UNDERGROUND UTILITIES

The contractor will complete the underground utilities by early September. Utilities included new sewer laterals, storm drain, fire service lines and water service meters. The water company and Edison are scheduled to make their connections in October 2021.

### PHASE 2

### WHAT TO EXPECT DURING

#### WORK ITEMS INCLUDE:

#### PHASE 2

- Remove and reconstruct concrete sidewalks
- Remove and construct curbs, gutters, spandrels and ADA ramps
- Construct foundations and carports
- Construct trash enclosures
- Connect irrigation systems

**DEMOLITION:** During this work, the contractor will remove the sidewalks in front of the buildings. This activity may generate intermittent loud noises.

Pavers or concrete between the building and sidewalk will **REMAIN** in place. Please remove all personal items near the sidewalks.

**SIDEWALK ACCESS:** Access will be maintained at all times. Project door mats will be provided to the business owners to help with tracking.

**DUST MITIGATION:** The contractor will use water trucks to maintain dust control during this work.

Weekly Notices will have additional information.

**PARKING:** Parking spaces will be available upon completion of the work in that area. Work durations can be a few hours or days. At least 150 parking spaces will be available at all times.

**SAFETY** is our number one priority. Project cones and traffic control devices will be placed. Please follow all signs.
